BANGOR - PEN ARGYL - NAZARETH Adult Education

INFORMATION

FREE Adult Education classes of the Bangor, Pen Argyl, and Nazareth Adult Education program will begin in February 2019. The GED preparation class will help students improve computer skills, reading, writing and math skills to then advance and take the GED test. Students must attend class both days of the first week for assessment and orientation. If a student is not able to begin in February, there will be a class at the beginning of March.

The **Bangor** area GED preparation class will meet in the library of DeFranco Elementary School on Five Points Richmond Rd, Bangor from 6 pm to 8:30 pm on Tuesdays and Thursdays. This class begins Tuesday, February 12. The next start date is March 5.

The **Pen Argyl** area GED class will meet in the Pen Argyl Senior High School Library. This class will run from 6 pm to 8:30 pm on Mondays and Thursdays. This class begins Monday, February 11. The next start date is March 4.

The **Nazareth** area GED class will meet in the lower level of the Nazareth Senior High School Library. The nights for the Nazareth classes are Tuesday and Thursday, from 6 to 8:30 pm, and will begin Tuesday, February 12. The next start date is March 5.

The sessions will run until the end of April and new classes will begin in September. The 36-year-old program has helped many area students earn a GED. Students who pass the GED, attend class and complete certain requirements, may receive an equivalency high school diploma.

The program is mostly funded by federal and state education grants managed by Northampton Community College. NCC operates one of Pennsylvania's largest adult education programs serving hundreds of students each year. Funding is also provided by Bangor, Pen Argyl and Nazareth school districts. In addition to these classes, information about continuing studies at NCC will be available.

For more information about these classes, please call Northampton Community College at 610 – 861 - 5427. Go to **www.GED.com** for all information about the GED test.
